

## The Bohemia Floor Collection

The Bohemia Floor Collection is made from a selection of premium quality Moravian and French Oak. All panels are 2cm thick and either made to the standard sizes indicated or can be custom made to suit individual requirements.

The boards and panels are mechanically matured after which the tannic acid present in oak is activated in a natural way. This treatment gives our floors a very beautiful and unique appearance.

Viennese Cross  
standard size: 570mm × 570mm

## The Moravia Collection Projects

The Moravia Collection Projects are made-to-measure interior creations which can be offered as a modular design or completely installed.

The collection includes libraries, kitchens, interiors for horeca & retail, children's beds, wall panelling using oak or reclaimed wood, doors and radiator covers as well as an outside playhouse.

Bohemian Works Libraries are contemporary tailor made creations, offering a unique set of finishes and range of options to suit all your individual requirements. Our belief in quality and choice combine to offer some extraordinary possibilities. You can include a secure compartment to store valuables, incorporate

a computer desk or house your TV, we even offer a completely integrated hidden bed. The Libraries are priced per linear metre, allowing you the flexibility to specify the width and height. We ensure your library will be installed within eight weeks.

Library with integrated hidden bed

Dressing Room – Furniture can be ordered painted in all Farrow & Ball colours.

Hotels, Restaurants & Retail

Fitted kitchens

Stairs

Radiator Cover – All our covers are tailor made to your specific requirements, including removeable grills and can be integrated or stand alone.

Doors

Nero Collection by Bohemian Works & Tina Mavriki. The partnership with Tina Mavriki, a Greek designer based in Athens, has resulted in the creation of the Nero Collection, a line of furniture that emphasizes purity and clarity in its design. It consists of dining, coffee tables, glass vitrine and wood buffets.

The Nero Collection is inspired by the simplicity of Greek forms and materials. It combines frugality of design and timeless elegance. Aged wood, raw iron and glass are the basic elements of the collection, produced by traditional craftsmanship of Bohemian Works.

The Moravia Collection Tables are designed by upcoming Interior Designers. All our tables are made-to-measure to your specific requirements. We also offer a completely bespoke service. For more information please ask for a copy of the brochure or visit [www.bohemianworks.com](http://www.bohemianworks.com)
