DESIGN SAMUELE MAZZA

PARQUET-PERCHÈ ?

Disegnare pavimenti è una faccenda non da poco...

E' il primo segno importante nella realizzazione di una casa, negozio, albergo, ristorante o altro...non deve essere troppo invasivo, ma neanche invisibile, deve tracciare la linea stilistica o i caratteri dei proprietari che lo hanno scelto, deve essere pratico ed eterno oltre che bello ed etico.

Noi progettisti siamo sempre mossi da un pensiero, da un concept ... Spesso però siamo condizionati dal nostro percorso stilistico e dal nostro vissuto... Chi mi conosce capisce bene che i miei ingredienti sono come quelli di uno chef in cucina..

Non prescindo mai da alcuni elementi tipici del mio codice estetico: classicismo, una certa velata opulenza, il senso del glamour, ma non a tutti i costi... Io lavoro pensando ad una moltitudine di persone che hanno gusti e culture diverse... Quasi mai progetto per me stesso.

Io sono al servizio degli altri, come un Figaro del design. In questo breve testo non voglio soffermarmi a descrivere i vari progetti del catalogo. A volte poche parole lasciano il segno, molti discorsi fanno perdere tempo o annoiano. Grazie a tutti coloro che sceglieranno i prodotti che ho disegnato per questa onorevole azienda che me lo ha chiesto.

Samuele Mazza

PARQUET-WHY ?

Draw parquet floors is a matter not just ... It 's the first important sign in the realization of a house, shop, hotel, restaurant or other ...it should not be too invasive but not invisible, it must draw the line style or the owner's characters who have chosen it.

It must be practical as well as beautiful and eternal and ethical.

We designers have always moved by a thought, a concept .. Often, however, we are conditioned by our stylistic and our experienced ...

Those who know me well understand that my ingredients are like those of a chef in the kitchen ..

Not ever is omitted from some typical elements of my aesthetic code: classicism, some veiled opulence, the sense of glamour, but not at all costs ... I work thinking of a multitude of people who have different tastes and cultures Hardly ever I project for myself.

I am at the service of others, as a Figaro design. In this brief text I will not dwell on to describe the various projects of the catalog. Sometimes a few words leave their mark, many speeches are wasting time or bored. Thanks to all those who choose the products I designed for this honorable company that asked me.

Samuele Mazza

PARQUET IN
100% MADE IN ITALY

I pavimenti PARQUET IN sono realizzati artigianalmente in Italia da abili maestranze che portano la loro esperienza e tradizione classica dell'ebanisteria anche nello stile più attuale e contemporaneo. Materiali pregiati e accostamenti inaspettati esaltano l'eleganza di queste creazioni, che solo lo stile "made in Italy" è in grado di realizzare.

PARQUET IN flooring is crafted in Italy by skilled craftsmen who bring their experience and classical woodwork tradition to amore current and contemporary style. Precious materials and unexpected combinations enhance the elegance of these creations, which only "Made in Italy" style is able to create.

PARQUET IN CAPSULE COLLECTION:
DESIGN ESCLUSIVO E BREVETTATO

CAPSULE COLLECTION è una collezione esclusiva e originale di pavimenti, disegnati da Samuele Mazza. Tutte le creazioni vengono brevettate e registrate presso Camera di Commercio per attestare l'unicità del design.

EXCLUSIVE AND PATENTED DESIGN: CAPSULE COLLECTION is an exclusive and original flooring designed by Samuele Mazza. All of the creations are patented and registered at the Chamber of Commerce to prove the design's authenticity.

CAPSULE COLLECTION:
PAVIMENTI PREFINITI PRONTI ALLA POSA

Tutti gli elementi della collezione CAPSULE COLLECTION sono realizzati con superficie levigata e prefiniti con finitura a Vernice UV, pronti per la posa e l'immediato utilizzo. Il processo produttivo manuale rende ogni pezzo unico e irripetibile, il colore del legno mai piatto.

READY TO INSTALL PRE-FINISHED FLOORING: all of the elements in the CAPSULE COLLECTION are created with smoothed surfaces and prefinished with a Varnish UV, ready for installation and immediate use. The manual manufacturing process makes each piece unique and individual, the colour of the wood is never flat.
