

CESARE FERRARI GROUP

ITALIAN FURNITURE

[www.cesareferrari.com](http://www.cesareferrari.com)

**CESARE FERRARI GROUP** is a reality “made in Italy” operating in the **field** of **contract** and **custom-made furnishings**.

**ESSETRE** di Scalabrin snc, **CERESIO ARREDAMENTI** S.r.l., **TECNOLEGNO ALLESTIMENTI** S.r.l., in fact, work **together for a years** as **General Contractor** called **CESARE FERRARI GROUP**, coordinating and executing projects and renovations of **shops, offices, hotels, private residences, museums, shopping centres** and every thing concerning space in **every country**. We realize **custom-made furnishings**, operating in different fields: **civil, hotel** and **commercial**.

The **long experience** of our Companies allowed us to settle **specialized workshops**, one for each field. The subdivision and competence of the work grants **extreme professionalism, high efficiency** and a **quality without comparison** to the Client. The **elevated professionalism** of our workers comes from “**craftsman like origins**” and allow us to realize custom-made fittings for each need and with **every kind of wood** and **other material**. Furthermore, **internally**, we have an office **specialized** in the **administrative** and **customs procedures** for deliveries in **every part** of the **world**.

The **team spirit** of the group, the valuable members of the team itself but also our numerous outside collaborations allow us to develop an activity always in the fore-front of the development of shapes and finishings.

We **produce** basing ourselves on projects and we are an **excellent interface** and **support** for **Designers** and **Architects**, for building contractors and/or **any reality asking for our support**. The experience of several generations, the **consulting service** and the **development of 3D projects**, the collaborations with very **important architects** and with international contractors are the cream of our activity especially in this difficult period of the world economy.

The **technical offices** consist of: **architects, geometers** and **engineers** that make executive drawings, **develop concepts, research new materials** and use the **most advanced technologies** to **manufacture wood, glass, metal, resins**, etc. in **highly specialized workshops**. To grant an elevated quality standard we often realize sample of materials and finishings to allow our clients to have a preview of the final result.

All the companies of the CESARE FERRARI GROUP are based in the north part of Italy with a productive surface of more than 28000 mq
