# Rooms **full of life.**

# Nature provides us with fascinating materials.

## **We make flooring out of these that is made for living.**

More and more people want a natural floor that is healthy for living. We meet these requirements with our trendy design flooring, classic cork flooring and colourful linoleum flooring. They all offer a sustainable living experience and are the basis for an individual look thanks to their creative variety.

Design your very own living space – for rooms full of life.

# Where health and a sense of well-being are at home.

What do design flooring, cork flooring and linoleum flooring have in common? They all combine a great sense of well-being with the security of giving a home a healthy basis.

All our knowledge, years of experience and creativity are invested in the development of these floors. We leave nothing to chance, from the selection of materials through to processing them. Resulting in what drives us every day: excellent quality that provides maximum comfort.

## 1 Design flooring

### A trendsetter

Made for healthy and beautiful living. Our design flooring is 100% PVC-free and impressively sustainable. And at the same time so modern and easy to clean that it cuts a fine figure in a cosy apartment as well as in a popular hip café. A strong character that impresses at first glance.

## 2 Cork flooring

### A pioneer

Pure nature provides a real sense of well-being. With its classic look, cork is the ideal basis for anyone who wants to combine naturalness with maximum living comfort. As a traditional product, cork is pleasantly warm underfoot and has great elasticity, which is also beneficial to the joints. These are just two of the many advantages that impress.

## 3 Linoleum flooring

### A multi-talent

Linoleum flooring also consists entirely of natural materials. Thanks to its great variety of colours and two formats, our linoleum flooring opens up completely new creative possibilities for installation. Resulting in individually designed stylish living rooms, cool offices and modern kitchens today!

Healthy living can be this beautiful.  
**An experience over the  
entire surface.**

# Enjoy life **to the full.**

The natural extremely authentic look of design flooring transforms rooms into a comfortable home. As easy to clean, durable and healthy for living as it is, it is suitable for every situation in life.

**Skirting board 9 PK profile** | White with natural oak inlay strips 2403 (decorative film)

# The welfare of your children is close to our heart. **Or rather to our floors.**

Who, what, how? Why? Very strict health regulations apply to children's toys. That's both good and correct, as it's a matter of our offspring's welfare. We think that this implicitness should also apply to floors which you live on and your children play on.

Our MEISTER design flooring does not contain any harmful plasticisers and is therefore completely harmless to health. Its *Puretec*® surface consists of 100% PVC-free, odourless polyester, a material that is also used in the food industry. Making MEISTER design flooring, which is tested for harmful substances, the healthy alternative to standard design flooring and completely harmless to people, animals and the environment. All the way through to it being disposed of through residual waste. If you should ever actually want to part yourself from this floor ...

Link to Design Flooring:  
[www.meister.com/en/design-flooring.html](http://www.meister.com/en/design-flooring.html)

# Fine, mine and in the midst of life.

Also those who pay attention to details will be impressed: our design flooring's authentic looking wood effects are inspired by fine woods and include tactile structures. As an alternative to PVC design flooring, it is tested for harmful substances, is healthy for living and extremely easy to clean and its many positive properties make it particularly family-friendly.

## PVC-free

*Puretec®* is a 100% PVC-free special coating that is not harmful to man or the environment.

## Authentic

The wood structures embossed into the *Puretec®* surface make the floors in this collection look very realistic.

## Healthy living

Polyester that is also used in the food industry, cork and wood from sustainable forestry make MEISTER design flooring into all-round healthy floors for living.

## Warm underfoot

The combination of polyester and cork as a comfort layer makes MEISTER design flooring pleasantly warm underfoot.

## Easy on the joints and elastic

The use of cork as a comfort layer and backing underneath the plank makes our design flooring elastic and easy on the joints.

## Easy to maintain and durable

Design flooring is easy to clean and durable. Many typical causes of stains have no effect. Soft, standard chair casters do not leave any undesirable marks either.

## Antislip

The innovative *Puretec®* surface makes MEISTER design flooring very antislip. The University of Wuppertal has calculated an antislip property of R9.

## Environmentally friendly

Thanks to its material properties, our design flooring can be conveniently disposed of at the end of its use via the non-recyclable waste.

# Award-winning and healthy – design flooring from MEISTER.

## The Blue Angel

The result of our responsible choice of materials and modern production processes is that all MEISTER floors carry the Blue Angel - the world's first and most well-known award for environmentally friendly products and services. It gives you the security of deciding on a low-emission and ecological flooring, also with the new MEISTER design flooring, which is also awarded with the Blue Angel, in complete contrast to standard PVC design floors.

## TOXPROOF TÜV Certification

Your health is important to us. That is why we voluntarily have all MEISTER design flooring tested TÜV Rheinland. The excellent result: the entire collection has received TOXPROOF TÜV certification, the symbol for floor coverings tested for harmful substances and found to be entirely without health risks.

## 100% PVC-free

We never use PVC in the production of MEISTER design flooring. Standard PVC floors, also known as vinyl floors, often contain harmful plasticisers containing phthalates, which are not compatible with our understanding of a floor that is healthy for living. As a healthy and environmentally-friendly alternative, we only process 100% PVC-free odourless PET in the *Puretec*® surface, which is a harmless material from the polyester family that is also used in the food industry, for example.

## MEISTER warranty

We are so convinced of the quality of our cork and linoleum floors that we give you a 10-year warranty for surface wear in private living areas. A Meister floor is a floor which you will love for many, many years to come because it is so easy to care for and has such a high-quality appearance and excellent durability.

Warranty according to the MeisterWerke warranty conditions at [www.meister.com](http://www.meister.com)

## General building supervision permission

granted by the German Institute for Building Engineering (DIBt).

## CE mark

All MEISTER design flooring complies with all European health and safety regulations.

## MADE IN GERMANY

We are firmly rooted in our location and see it as much more than just the name of where we come from. For us, "Made in Germany" also means top quality standards. It is our daily challenge to meet these.

# Welcome to MeisterWerke.

We have been passionately developing and making products for rooms full of life for many years. At our company headquarters in Rütten-Meiste, in the beautiful region of Sauerland, it is our daily challenge to perfect these and therefore ensure the greatest benefit for our customers.

Our love of innovation is evident in everything: in our huge range, in our company and in the way that we work together. Always collaboratively and fairly but also purposefully and reliably. Our company motto is: a MeisterWerke masterpiece every day!

As a family-run company we also think about future generations. That's why respect for nature and natural resources is a matter of course for us. We place great importance on environmentally sound origin and short transport routes when choosing our materials. Independent test institutes verify that the materials used are harmless. Resulting in products that combine top quality, maximum comfort and a great feeling year after year. For your rooms full of life.

**MEISTER**

Innovative products and system solutions are always the result of teamwork at MeisterWerke.

The careful selection of materials and decor guarantees the best result.

Our products undergo extensive quality tests on their way to becoming the perfect interior design object.

Open to everything  
**that nature has to offer us.**

## Focus on the essence of living.

Inspired by nature and timelessly beautiful. Our cork flooring's individual looks and variety of surfaces accentuate the style of any room. The natural character is rounded off by the typical properties of the natural material cork: being warm underfoot and easy on the joints, it provides you with tangible comfort in all living areas.

KC 400 S | White rustic 675

# Totally natural – and naturally quiet.

MEISTER cork floors literally offer genuine living comfort. Their great elasticity is easy on the joints and their warmth is pleasant underfoot. As versatile as they are, they are also suitable for laying on subfloors with controlled hot water underfloor heating. This exclusive material is provided with great sound absorption by nature itself. As a result of its excellent quality, you will be able to enjoy your cork flooring for a long time. This is also guaranteed by the varnish seal, which provides it with additional protection for maximum hygiene, easiness to clean and durability.

## Sound absorption

Cork is used in many situations to reduce noise - just as it is in MEISTER cork flooring. The cork cushioning on the bottom of each plank combined with the cork surface makes it an exceptionally quiet floor. This applies both to the noise in the room and the footfall noise heard in rooms below.

## A natural talent

MEISTER cork flooring can be used in many different ways thanks to its modern appearance, its robustness and its excellent sound absorption properties. The fact that it is very pleasant to walk on even barefoot is thanks to the elasticity of this natural material which is easy on the joints. This means that cork flooring is ideal for living rooms, playrooms and bedrooms and can even be fitted in commercial areas.

Since it is a natural product, the colour of cork may alter when exposed to direct sunlight. It is possible that the floor will lighten in colour, depending on the situation of the room and light.

## Environmentally Friendly Varnish Seal

Our cork flooring's environmentally friendly *Duratec Pro* varnish seal is especially durable and easy to care for. The "Pro" in this five-layer *Duratec* varnish composition stands for a high abrasion resistance and a high level of robustness. The entire composition consists of formaldehyde-free, viscoplastic and UV-hardened acrylic varnish. This acrylic varnish is ecologically non-harmful. It caters for hygiene, easy-care and long-life.

### Wear class 23

The ideal floor for all living areas with heavy wear such as kitchens, hallways, home offices etc.

### Wear class 31

The ideal floor for commercial areas with normal wear such as hotel rooms, small offices, conference rooms etc.

# Cork flooring from MEISTER – made from natural materials.

## The Blue Angel

The result of our responsible choice of materials and modern production processes is that all MEISTER floors carry the Blue Angel - the world's first and most well-known award for environmentally friendly products and services. This means you can be sure that you are choosing a low-emissions, ecological floor.

## MEISTER warranty

We are so convinced of the quality of our cork flooring that we give you a 10-year warranty. A MEISTER floor is a floor which you will love for many, many years to come because it is so easy to clean and has such a high-quality appearance and excellent durability.

## The art of leaving behind **a lasting impression.**

Linoleum? Simply fascinating! A purely natural product and as colourful as life itself. And extremely resistant in any case. Back then only available in grey, dark red or fir green once, today it amazes in bright colours and formats that inspire totally new floor design ideas.

**MEISTER**

# Brings a splash of colour into your every day life.

They are multi-talents of great natural beauty – MEISTER linoleum floors fascinate due to their striking colours, great durability and easiness to clean. We finish these floors with the so-called Topshield™ surface, which provides intensive protection, accentuates its original character and brings out the colours. For us natural comfort also means that MEISTER linoleum floors are suitable for laying on subfloors with controlled hot water under-floor heating.

## Protective Topshield™

All MEISTER linoleum floors have a dual-layer, water-based surface finish. It brings out the colours brilliantly, makes the floor resistant, protects it from dirt and signs of wear and ensures that you will enjoy your floor for a long time.

- durable protective layer
- pore-filling base layer
- linoleum

## Colour maturity

Linoleum gets its correct hardness-elasticity ratio in the drying chamber. Linoleum flooring leaves the chamber with a light "yellow tinge" – the so-called drying chamber film. This film degenerates after laying. Sunlight makes the floor take on its original colour. The length of time this process takes depends on the sunlight's intensity. It occurs more distinctively with light linoleum surfaces than with darker ones. So you should not be surprised when you take your newly purchased linoleum out of the cardboard packaging. Your flooring needs a little time to find its colour.

## Ready to handle everyday wear and tear

Thanks to the special surface finish on our linoleum, many typical causes of stains leave no trace on these floors. Soft, standard chair casters do not leave any undesirable marks either. The stabilising cork floor backing reduces the noise caused in the room, and the footfall noise transmitted into rooms below, as well as providing an elasticity you can feel. MEISTER linoleum flooring is therefore perfect for offices or home workrooms. Of course, it is also excellent for other commercial areas or living rooms and bedrooms.

## Wear class 23

The ideal floor for all living areas with heavy wear such as kitchens, hallways, home offices etc.

## Wear class 32

The ideal floor for commercial areas with normal wear such as offices, waiting rooms, boutiques etc.

# Linoleum flooring from Meister – made from natural materials.

## The Blue Angel

The result of our responsible choice of materials and modern production processes is that all MEISTER floors carry the Blue Angel – the world's first and most well-known award for environmentally friendly products and services. This means you can be sure you are choosing a low-emissions, ecological floor.

## TOXPROOF TÜV Certification

Your health is important to us. That's why we choose to have all MEISTER linoleum flooring tested by TÜV Rheinland. The excellent result: the entire collection has received TOXPROOF TÜV certification, the symbol for floor coverings tested for harmful substances and found to be entirely without health risks.

## MEISTER warranty

We are so convinced of the quality of our linoleum flooring that we give you a 10-year warranty. A MEISTER floor is a floor which you will love for many, many years to come because it is so easy to clean and has such a high-quality appearance and excellent durability.

Warranty according to the MeisterWerke warranty conditions at [www.meister.com](http://www.meister.com)

## General building supervision permission

granted by the German Institute for Building Engineering (DIBt).

## CE mark

We are firmly rooted in our location and see it as much more than just the name of where we come from. For us, "Made in Germany" also means top quality standards. It is our daily challenge to meet these.

MEISTER

# Just click and enjoy: convenient laying, intelligent structure, perfect format.

Our floors are fast and easy to install, thanks to our traditional professional care, many years of experience and comprehensive technical knowledge.

## Uniclic connection on linoleum flooring

The proven pre-tension system ensures a lasting, secure joint lock at both ends.

Link to Masterclik Plus:  
[www.meister.com/en/good-to-know/innovation/click-connection/masterclik-plus.html](http://www.meister.com/en/good-to-know/innovation/click-connection/masterclik-plus.html)

## Plank formats

The "healthy living" plank formats from MEISTER provide plenty of scope for creative ideas and a unique home.

## Product structure

### Design flooring

MEISTER design flooring is distinguished by its intelligent multi-layer construction with dimensionally stable HDF middle layer. The cork comfort layer ensures elasticity that is easy on the joints, minimum noise and maximum comfort. The high quality *Puretec*® surface makes the floor durable and easy to clean.

In contrast to standard PVC design flooring, MEISTER design flooring is odourless. The additional anti-static coating minimises the development of static electricity on people.

## Mastercllic Plus

### End connection on design and cork flooring

The patented system for fast laying and secure connection.

- 1 | The flooring is lowered right next to the neighbouring plank.

- 2 | After lowering, the flooring is not yet locked at the ends.

- 3 | The tongue is only activated when the next row is laid.

- 4 | This results in a secure connection.

### Cork flooring

Two things give MEISTER cork flooring its amazingly long life: the intelligent multi-layer structure and the dimensionally stable HDF middle layer. The *Duratec Pro* surface is sealed five times with formaldehyde-free UV acrylic varnish, making it extremely durable and abrasion-resistant.

The cork cushioning on the bottom of each plank combined with the cork surface makes MEISTER cork flooring exceptionally quiet. This applies both to the noise in the room and the footfall noise heard in rooms below.

### Linoleum flooring

MEISTER stain-resistant and anti-bacterial linoleum flooring is a purely natural product with an attractive appearance and pleasant feel. The HDF middle layer used guarantees good durability and a beautiful floor over many years.

The dual-layer Topshield™ surface finish also contributes to this. It brings out the colours brilliantly, makes the floor resistant and protects it from dirt and signs of wear.

**Design flooring, cork flooring and linoleum flooring from MEISTER are suitable for laying on subfloors with controlled hot water underfloor heating.**

# For the perfect finish – details that simply match.

1

## Universal profiles

The professional and proven installation solution for transitions, ends and expansion joints.

2

## Universal stair profiles

Stairs with MEISTER floor elements can be easily covered with matching profiles.

3

## Skirting boards

Three selected profiles to match all the decor/wood shades in the parquet, cork and laminate flooring range provide the perfect finish.

4

## Skirting boards

These modern square-shaped skirting boards are available in many surfaces. Skirting boards coated in a white film which can be painted by the customer in any colour you like.

5

## Hamburg skirting boards (not allocated)

The elegant classic among skirting boards can be combined with any floor.

6

## Under lay material (not allocated)

High-performance range of insulating underlay for effective sound absorption in the room and the reduction of footfall transmitted to rooms below.

7

## Ceiling edging

Three different ceiling edging profiles guarantee clean edging for walls and ceilings.

Link to Mouldings:  
[www.meister.com/en/accessories/  
flooring-accessories/mouldings.html](http://www.meister.com/en/accessories/flooring-accessories/mouldings.html)

A perfect living atmosphere results when all the elements in a room are perfectly coordinated to one another. These include, for example, mouldings that match the floor or panels for attractive joints or special profiles for successful room transitions. Lights can also contribute a great deal to the room atmosphere with their individual light effects. We also offer you suitable care products so that you can enjoy your floor for a long time after installation.

- 8 Corner mouldings**  
Perfectly coordinated special mouldings, e.g. large corner mouldings for many corners, angles and edges.

- 9 LED recessed lights**  
Our recessed lights, such as FLAT Quadro, are ideal as orientation lighting and impress with their compact dimensions.

- 10 LED panel lights**  
To match wall and ceiling installations and ideal for indirect lighting or creating accent lighting.

- 15 Care products** (not allocated)  
The range of care products are specifically for cleaning MEISTER floors.

- 14 Attachment lights**  
The lights are versatile in application and offer the option of choosing between warm white or bright clear light.

- 13 Recessed lights**  
The modern lighting range with its LED; low voltage and high voltage lights offers plenty of creative possibilities to create effective room and accent lighting.

- 12 Shelving rails**  
If the SP 400 system panel elements are assembled with a live aluminium rail, they can be fitted with decorative lights, e.g. glass floor lights.

- 11 Glass floor lights**  
Decorative and atmospheric accent lighting can be fitted to the SP 400 system panel shelf inserts using glass floor lights.
