*1 American Walnut is character grade wood while all other Vernal floors are select grade. *2 Crafted per order. Please inquire for details.

OLD WORLD CRAFTSMANSHIP MEETS LUXURIOUS MODERN DESIGN

DuChateau® creates wide-plank wood floors that offer the look, feel, and longevity of old-world European surfaces created centuries ago. Using traditional techniques perfected in Holland, combined with modern state-of-the-art technology, each plank is treated with all natural, ultra-low VOC hard-wax oil for a beautiful and highly resistant matte finish. As a proponent of environmentally friendly harvesting methods, the majority of DuChateau® wood floors are FSC® certified and qualify for a number of USGBC LEED® credits.

SPECIES	European oak, European ash, European larch, European walnut and American walnut
APPLICATIONS	Residential or commercial
COLLECTIONS	Chateau, Vernal, Terra, Riverstone, Heritage Timber, Fine Sawn, Vintage Remains, New Classics and Palais

Due to the natural materials and unique finishing processes, DuChateau® wood products may experience tonal and color variation between planks depending on time in or out of the box and conditions such as weather, temperature, location, moisture levels or proper maintenance and installation. To avoid dramatic variation mainly caused by aging, it is recommended installation be completed from the same lot. Every DuChateau® Floor is unique unto itself and may be different than the samples and photographs.
