# Nadura®

As hard as a rock.  
As warm as wood.

Modern tiles? Or a cosy wooden floor? We say: both! The innovative Nadura floor makes this possible. Warm underfoot and natural like wood, robust and unbreakable like tiles – these properties are perfectly combined in Nadura flooring.

The main component of Nadura is the innovative "wood powder" – a mixture of fine wood fibres and mineral components that is compressed using pressure and high temperatures. Resulting in the Nadura surface – that is in fact both: as hard as a rock and as warm as wood! and it looks fantastic. Trendy imitation stone and metal in maxi tile format accentuates your modern decor.

# A class of its own!

As with every MEISTER product, an innovative spirit and a sharp eye for craftsmanship go hand-in-hand with Nadura. That's how we create products whose quality and design leave nothing to be desired.

## Extremely durable

- » The high share of mineral substances gives the floor the toughness of a stone or ceramic tile.
- » Whereas ceramic tiles split or crack when subject to impact, with Nadura only small dents or scratches result that can partly be repaired.

Nadura

Standard ceramic and fine stoneware tiles

## Pleasantly warm to the foot

- » Due to the high share of wood fibres, body heat is drawn away slower than with ceramic or fine stoneware floors.
- » Due to the share of mineral substances, Nadura floors are just as tough as stone or ceramic tiles.

## Easy to clean

- » Red wine, oils and other liquids can permanently discolour the necessary cement joints between stone and ceramic tiles. They can be removed without a trace from the Nadura joints.
- » Wet, coarse dirt can even be removed from the deeper surface structures as Nadura is extremely scrub and abrasion resistant.

## A perfect look

- » The embossed surface structures make Nadura floors look very realistic.
- » Nadura is a natural product, each plank is a one-off.

The innovative technology allows for multiple colours in different effects and intensities, just like ceramic or fine stoneware floors.

## Anti-slip

The innovative surface combined with the embossed structure makes Nadura floors very anti-slip (category R9|R10).

## Suitable for commercial use

- » Wear class 23|34
- » Anti-slip class R9|R10
- » Hardly flammable (Bfl-s1)

# Nadura®

## Product structure

The unique properties of Nadura floors are achieved by three layers bonded tightly together using pressure and heat. The core layer connects to the surface made from an extremely tough mix of wood and minerals. A special AquaSafe board made from special wood materials is used for the floors. Nadura backing stabilises the construction. Nadura flooring is also suitable for laying on subfloors with controlled hot water underfloor heating.

## Flooring with unique character

Nadura makes the difference: a floor that is similar to ceramic and fine stoneware in hardness but is fitted with the warm to the foot feel-good factor of wood. This innovative material allows for a whole range of surface versions that replicate elegant slate and sandstone or modern concrete structures. Open up your rooms to a new dimension of design!

A wooden floor for the kitchen? A stone floor in the bedroom? We recommend: durable and warm to the foot Nadura floors for both rooms! As Nadura plays to its individual strengths in any environment: just as tough as tiles and yet just as cosy as a wooden floor. Children's rooms, living rooms, guest rooms, hallways and studies all benefit from this.

**MEISTER**

Considerably different.  
**Considerably better.**

Nadura stays neat and clean after heavy wear. Even wet clay or coarse dirt is no problem for this flooring; dirt is easy to remove from the deeper surface structures, because Nadura is extremely scrub and abrasion resistant. In that sense, Nadura is also the perfect flooring for hallways.

# High-traffic areas? No problem!

The look also pays off in business. Besides the surface structure, the colour of the floor in particular influences the room's look. From light concrete look to dark slate, there is a selection of attractive colour varieties with Nadura. They all have one thing in common: With a wear class of 34, they are all very forgiving, even when subjected to heavy traffic or stress.

The recipe for  
**permanent  
pleasure**

It can happen very quickly, especially in the kitchen: a pot falls or a glass tips over. What leaves behind permanent traces on other floors is not even worth mentioning with Nadura flooring: just clean it up and it's all forgotten. What remains are the wonderful memories of culinary experimentation, holiday baking, and celebrations with family.

# Accessories

---

With MEISTER you are sure that everything goes together!  
Underlay materials, skirting boards, profiles and ends – you  
get everything from one source, making your flooring into a  
long-lasting integrated furnishing solution that suits you perfectly.

## Open to all styles – **white skirting boards.**

What does white have that other colours don't have? Openness that adapts to any style and the ability to effortlessly complement all other colours. That is why our skirting boards with white decorative film enrich any living style and can be superbly combined with all floors. The large selection of different profile shapes enables you to also create classical and modern touches totally to your taste.

SKIRTING BOARD 8 PK PROFILE | PLAIN WHITE GLOSS 324 (DECORATIVE FILM)

SKIRTING BOARD 19 PK PROFILE | PLAIN WHITE GLOSS 324 (DECORATIVE FILM)

SKIRTING BOARD 8 PK PROFILE | WHITE PAINTABLE 2222 (INDIVIDUAL COLOUR)

## Colourful and full of character – **skirting boards you can paint yourself.**

In the colour of your wall? To match your furniture? Or completely different? It's up to you: design your skirting boards totally according to your own ideas! Covered in a film that can be painted, these mouldings are prepared perfectly for you to realise your personal ideas. Let your creativity run wild!

## A harmonious look – **with floor-matched skirting boards.**

You quite rightly would like pure harmony within your own four walls, and that's from the ground up. You can achieve this effortlessly with skirting boards coordinated to the colour or decor of your floor. The balanced interplay between the floor and moulding is rounded off by the impressively consistent decor from moulding to moulding. This is how good perfect harmony looks.

## The complete system counts: Underlay for high-quality flooring

Without good underlay, it's not a good floor. The underlay material has a significant influence on the durability of the flooring and is an important component of how the entire system functions as far as day-to-day wear is concerned. Premium-quality flooring may suffer damage when laid on poor-quality underlay. High-quality underlay, on the other hand, ensures that your flooring will bring you lasting enjoyment; it prevents damage to the click connections through optimum pressure stability, for example, whereas excessively soft underlay can have a significantly negative effect on fold-down connections. When choosing an underlay material, both the sub-flooring and the flooring to

be installed are important. Whether your sub-flooring is concrete, wooden floorboards, drywall or existing flooring such as tiles or stone:

With a comprehensive underlay range, MEISTER ensures that every MEISTER floor can be laid on your sub-flooring.

Sub-flooring   Underlay	Silence 25 DB	Silence 20	Silence 15 DB	Twin Control	Foam film	PE film
Wooden floorboards	–	✓	–	–	✓	–

Mastic asphalt screed	–	✓	–	–	✓	–
Existing flooring (e.g. ceramic tile, natural stone, polymer)	✓	✓ with PE film	✓	✓	✓ with PE film	✓

# MEISTER

## underlay materials:

Thanks to the special PUR mineral blend, MEISTER-Silence 25 DB, MEISTER-Silence 20 and MEISTER-Silence 15 DB are the perfect insulating underlay for effective sound absorption in the room and reduction of footfall transmitted to the rooms below. The high self-weight of the products also further improves their sound-absorbing properties. In the case of Silence 25 DB and 15 DB the vapour barrier is already integrated, eliminating the need to lay an additional PE film. This is also true for MEISTER Twin Control. The insulating underlay made from closed-cell, moisture-resistant, permanently elastic extruded polyurethane foam also features a practical, integrated self-adhesive strip along its length. With a roll length of 25 m, it is fast and easy to lay and additionally offers excellent footfall noise reduction. MEISTER foam film is an insulating underlay with a higher density than many other commercially available foam films; in combination with MEISTER PE-film, it provides optimum moisture protection.

All MEISTER underlay materials can be installed on underfloor heating. They comply with the technical bulletin provided by the European Producers of Laminate Flooring (EPLF) based on CEN/TS 16354. The Silence products also meet the requirements of the technical bulletin issued by the Multilayer Modular Flooring Association (MMFA): 'Underlay Materials under Multilayer Modular Floor Coverings (MMF) – Test Standards and Performance Indicators' for Class 1 (with HDF core).

1. MEISTER Silence 25 DB with integrated vapour barrier | 3 mm
2. MEISTER-Silence 20 | 2.5 mm
3. MEISTER Silence 15 DB with integrated vapour barrier | 2 mm

4. MEISTER Twin Control with integrated vapour barrier and adhesive strips | 2 mm
5. MEISTER foam film | 2 mm

# Every day a masterpiece.

We have been passionate about creating innovative products, practical system solutions and attractive designs for more than three generations: 80 years. We are constantly developing ourselves, our company and our range. As we know: you expect the best all the time. And that's what we want to give you.

## **MEISTER is committed to its location.**

We think internationally but remain a German company – over 650 employees guarantee »Made in Germany« premium quality day in day out.

## **MEISTER is a leading innovator.**

Intelligent ideas make us the driving force behind the industry – over 200 patents and utility models are impressive evidence of this.

## **MEISTER takes responsibility for the environment.**

We act sustainably in all areas – careful product selection protects resources and the climate.

## **MEISTER stands by specialist retail.**

We focus on reliable partnerships with specialist trade and specialist craftsmanship – our »100% PRO Producer/Dealer/Craftsmen« network guarantees first-class products, professional advice and expert assembly.
