FERRE

The “Architect of Fashion” inspires Rugs.

La moda di Gianfranco Ferré è come una sintesi di suggestioni ed emozioni in un linguaggio di segni e forme, colori e materiali. La sua ricerca costante è finalizzata ad un equilibrio che trae dalla ricchezza della tradizione gli stimoli per inventare, innovare e sperimentare. Il suo stile è caratterizzato da una forte identità e da un intento di coinvolgimento globale. La sua Opera rimanda a culture ed esperienze differenti che riduce le distanze ed è volta ad annullare i confini. Era soprannominato l'Architetto, per via della sua laurea, ma soprattutto perché per lui ogni abito non era solamente una crea-

zione artistica ma un vero e proprio progetto. Sulla scia di questi concetti SAHRAI ha elaborato una Collezione di Tappeti dove forme e colori continuano ad evocare l'opera immortale di un grande Designer Italiano. L'esclusività dei materiali e la raffinatezza delle lavorazioni danno vita ad una Collezione che incontra le dinamiche più contemporanee del vivere moderno.

The Style of Ferré is a mixture of suggestions, signs and forms, colors and materials. There is a constant search for a balance which takes inspirations from the rich

tradition in terms of inventing and innovating. His style is also characterized by a strong identity that involves the world of Design. Everything leads to different cultures and experiences, which seem to reduce distances and cancel boundaries. He was nicknamed the Architect, because of his degree and he wanted to be recognized as such because an outfit, for him, was not just an artistic creation but a real project. On the trail of these concepts SAHRAI has developed a Collection of Rugs where shapes and colors continue to evoke the immortal work of a distinguished Italian Designer. This Collection blends to the most contemporary life and thanks to the exclusiveness of the materials and the finest hand-made work processes becomes a precious homage to one of the greatest fashion figure of all times.

Стиль Gianfranco Ferré представляет собой синтез воспоминаний и эмоций на языке знаков и форм, цветов и материалов. Его постоянные исследования, направленные на поиск баланса и наполненные богатыми традициями, создают стимулы для того чтобы изобретать, внедрять инновации и экспериментировать. Его стиль характеризуется ярко выраженной индивидуальностью и дает ощущение глобального участия.

Его Шедевры относятся к разным культурам и многогранному профессиональному опыту, который уменьшает расстояния и стирает границы. Его переименовали в Архитектор, благодаря полученному образованию, но в первую очередь благодаря тому, что для него каждое платье было не только художественное творчество, но и профессиональный проект. Следуя данной концепции SAHRAI разработала Коллекцию Ковров, где формы и цвета продолжают вызывать бессмертное произведение итальянского Дизайнера. Эксклюзивность материалов и изысканность обработки отвечают самым динамичным требованиям современной жизни.
