

WALL COVERINGS

the new dimension of elegance

DuChâteau presents its exclusive line of luxury wall coverings – available in 12 styles with an exquisite selection of colors and finishes. These architectural elements offer a modern, artful perspective, using geometric-inspired designs.

Each style represents a reimagining of the natural world that highlights the beauty of the positive and negative space. Light and shadow play against the natural tonalities of the wood. Rich, distinct surface treatments capture the attention. And all come together brilliantly to create the very shape of luxury and elegance to come. This is DuChâteau Wall Coverings.
