Data taken from a representative colored body collection.
Coefficient of Friction: All values given are for matte or honed material. No values are given for polished material. DuChâteau does not recommend polished surfaces in areas subject to exposure from grease, oil or water. (All values are based on ASTM C1028 and Acutest DCOF.)
* Applies to the following products: Palermo, Carrara, Ferrara & Padua.
** Applies to the following products: Monza, Capri & Modena.

Juxtapose your life.

Hardy and nonporous, DuChâteau Porcelain DeLuxe carries the brilliance of our hardwoods in a quality design and inspired finish that propels design sensibilities forward from every angle.

DIGITAL TECHNOLOGY

Our cutting-edge glazing technology offers minimal repetition and natural variance throughout with high-resolution imaging and consistent shading production.

Each Porcelain DeLuxe tile is certified through the internationally recognized GREENGUARD Certification Program™ of the GREENGUARD Environmental Institute (GEI) for its low chemical emissions. DuChâteau Porcelain DeLuxe also includes a percentage of pre-consumer recycled material, plus six percent (6%) post-consumer recycled glass – a feat rarely seen in porcelain. Meeting such stringent indoor air quality criteria and using more recycled materials in its production is how DuChâteau is changing the face of tile.

Beauty and durability for interior and exterior, commercial and residential spaces.

COLORED BODY

The tones on the tile surface are coordinated with the colors used in the body of the tile, making it ideal for high-traffic areas.*

RECTIFIED EDGES

The tiles are mechanically finished with precise edges, allowing for tighter grout joint spacing during installation.

VARIATION

As in nature, our products feature a subtle shade variance within the same color palette to create greater individual beauty from piece to piece.

One of the finest luxury hardwood alternatives, DuChâteau Porcelain DeLuxe elegantly bridges the traditional divide between interior and exterior spaces. Our exclusive porcelain line invites the design conscious to rethink what we can ask of a flooring element. No longer a rich color palette reserved solely for DuChâteau's famed hardwood collections, Porcelain DeLuxe incorporates the warmth of simulated wood finishing and reinvigorates how we experience our world. Exceptionally durable and well suited for damp environments, DuChâteau Porcelain DeLuxe offers a new level of sophistication to your next space however you wish to see it.

COLORS

*Excludes cracking, chipping and visible damage not associated with normal wear and tear.

DuCHÂTEAU

PORCELAIN
DELUXE

Created to be a one-of-a-kind piece of nature's artistry, each and every DuChâteau® porcelain product carries distinct variations in its finish and overall texturing to recreate the unique diversity and natural elegance of our hardwood collections. It is virtually impossible to capture – in a small sample – the entire range of color variation and texturing that will be present in the porcelain flooring you will receive. It is recommended to mix tiles from several boxes during installation to achieve best color range. To better understand the distinct look of a DuChâteau finished porcelain flooring in your space, we recommend consulting your sales representative for more details.
