## 2016 Collections

#### MERCIER 35 years

# 2016 Collections

MERCIER offers five collections that include more than 2,000 options of wood floors available in an infinite variety of colours, widths, and finishes. MERCIER, a world of style! Choose the one that proclaims your uniqueness and confirms what sets you apart.

# Origins

Pure and natural. Where everything began. A selection of North American origin wood at its most pure: without any stain.

# Design+

Your floor, custom-designed. An exclusive selection of the most beautiful colours applied on Red Oak and Hard Maple. Choose the species, stain, gloss, strip width, grade, then create the floor that you want!

## (Na) Nature <sub>Collection</sub>

Rough and textured, the Nature collection goes equally well with rustic and contemporary décors. Woodworking brings out rich patterns whose composition is unique, both in the intrinsic qualities of the material and in the techniques used to enhance them.

# XOTIC

Naturally rich. Wood species with rich colours and striking contrasts originating from the Americas.

To find out more specific details about our product offer, please refer to the document "PRODUCTS CHART".

## Elegancia Collection

Sophisticated and trendy. An exclusive selection of products inspired by the world's great design trends. Raw material refinement that lets all the beauty of the wood shine through.

## 2016 Design Trends

#### **EPIC DÉCORS**

This happy blend of cultures and variegated textures is enjoying a surge of popularity. Aged rough wood is favoured for the floor, while décors display a daring use of gold against blue backgrounds. Here and there, luxury fabrics are adorned with Berber-inspired patterns. Quality is no longer spared, and exclusive elements are much sought-after!

#### WINNING COMBINATIONS

We are witnessing unlikely hybrid blends where the most eclectic contrasts are allowed. In vintage style, olive green combines with shades of orange to give an electrifying boost to white floors. The pop art effect is making a strong comeback!

#### Wider-than-ever wooden boards

Whether it is tiles or wallpaper, the trend is for oversized patterns. Wood floors are following suit with increasingly wide boards that make the tiniest rooms appear larger.

From floor to ceiling, including the walls, different board widths are being used to bring a

contemporary touch to the décor. Are you interested in trying it out? Certain Mercier-brand flooring styles are available in 61/2" boards, such as Fuego (p. 47), Black Cherry (p. 47), Kona (p. 43), and Slate (p. 43).

#### Unusual installations

4

Geometrical shapes are being revamped. The trend is towards the creation of original and even atypical shapes. The chevron effect is applied boldly, and carefully studied asymmetries are used, both vertically and horizontally.

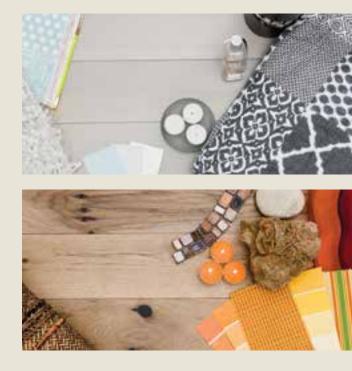

#### LOOKS

Softness has been given an updated look in unique mixtures of styles and periods. Pink and powder blue are reappearing, while rounded lines flirt with geometrical shapes, creating a nice yin/yang balance. Bleached flooring is all the craze and is considered the height of elegance.

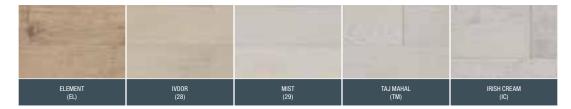

#### A DESERT INFLUENCE

Sun-drenched spaces are prized as places to restore vitality. Warm tones are used daringly to create a décor bursting with stripes, dots, and botanical patterns. Yellows and orange hues are popular choices, especially when used in combination with one of our Element wood floors.

#### Lighter-toned floors are in

This Scandinavian-inspired trend accentuates the rustic chic of wood flooring with naturally softened colours. Regardless of the species, white, cream, and smoky grey are currently the overwhelming favourites.

Beauty can be found even in imperfection, hence the new popularity of coarsely textured surfaces. Such floors, marked by the passage of time, are perfect for creating industrial and modern looks, as long as they are used in conjunction with a more uniform style of furniture.

## Mercier Heritage

The MERCIER HERITAGE series alludes to more rugged landforms. With the patina finish of the wood, the surface perfectly conveys a time-weathered look, with its knots and grain in full view. Both in the city and the country, the warm and convivial atmosphere of the floors of yesteryear is recreated in your home by the MERCIER HERITAGE series.

# To guide your choice

When the time comes to choose a wood floor, a thousand and one questions arise. MERCIER provides answers to questions considered essential.

### Wide or narrow boards

Valued by fans of the modern, rustic or industrial look, wide boards amplify the impression of vastness. More chic, narrow boards are better suited for classic or contemporary décors.

### How to create the effect of a larger room

A room can appear larger than it is in reality if more light-coloured and wider boards are chosen, and they are laid in the direction of the length of the room, that is, towards the outside windows.

# A matte or gloss finish

While the choice of finish is initially a matter of taste, it is important to know that imperfections and dirt are better camouflaged by a matte appearance. On the other hand, a gloss finish can help to enhance the impression of space, especially if it is applied on wood with a light stain.

### Light or dark

Although it more easily shows the marks and scratches of everyday life, a dark floor adds emotion to décors, and creates a hushed, warm environment. A room featuring lightcoloured wood favours an airy, peaceful and bright ambience. It truly is a matter of taste!

# Easy care for your wood flooring

MERCIER wood flooring can be easily maintained. To eliminate dust and abrasives from the surface, it is recommended to vacuum regularly. Wax, household detergent, and oil-based soap should never be applied. To preserve your floor in intact condition, use the MERCIER phosphate-free cleaner. A complete maintenance kit is available from all our retailers.

### Durability and restoration

MERCIER offers the best warranty in the industry: a life-time warranty on the floor structure, a 35-year residential warranty on the MERCIER GENERATIONS GREENGUARD certified finish, and a 5-year commercial warranty. As for the MERCIER PURE EXPRESSION oil finish, it offers a 10-year warranty. Clear and smooth, the MERCIER finishes are not only durable, but they allow all the beauty of the wood to shine through.

### You have a dog

First of all: have your dog's nails clipped regularly. Secondly: choose a brushed or textured finish, or, if this look doesn't suit you, opt for an ultra-resistant wood species such as Hard Maple, Brazilian Cherry, or Santos Mahogany.

### Easy to repair

With the MERCIER touch-up kit, it is possible to correct slight scrape marks. For deeper damage, it is easy to replace one or more boards. The same cannot be said of floors covered in broadloom carpet or ceramic tiles...

## LOC, Engineered or Solid?

If you are thinking of installing your floor on your own, either because you like do-it-yourself projects, or because you want to economize, rest assured that there is nothing easier than laying LOC wood floors.

The complexity of laying ENGINEERED floors can vary depending on the method of installation chosen. However, the ENGINEERED products have advantages that are not negligible: increased stability, the option of wider boards, a wide choice of textures, etc.

Regarding SOLID flooring, a timeless choice, its installation can require the skills of an experienced installer. Solid wood floors are exceptionally durable and are available in a very wide selection.

# MERCIER GENERATIONS GREENGUARD Certified finish

Mercier Wood Flooring is now greener than ever. Made using 100% pure soybean oil, our MERCIER GENERATIONS flooring passes stringent environmental tests at every step in the finishing, dying, and varnishing process to earn the prestigious GREENGUARD GOLD certification. This product boasts a number of features to resist wear, like our revolutionary VOC-free hypoallergenic finish that comes with a 35 year comprehensive warranty. MERCIER GENERATIONS GREENGUARD Certified is the cleanest, greenest, and healthiest floor on the market—and our way of acting today for future generations.

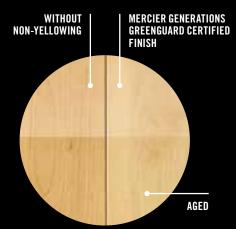

With the exception of the EMOTION oil finish products on page 30, all of our products have the MERCIER GENERATION GREENGUARD certified finish.

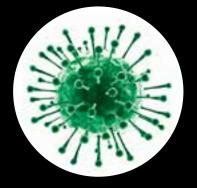

### Properties of Mercier GENERATIONS GREENGUARD Certified finish

#### NON-YELLOWING

With its state-of-the-art protective coating, the Mercier GENERAT IONS GREENGUARD Certified finish offers superior protection against premature wood discoloration and yellowing.

#### ANTIMICROBIAL

With a powerful antimicrobial agent that inhibits the risk of microbe and mildew growth on the finished surface, the Mercier GENERAT IONS GREENGUARD Certified formula helps keep your home safe and hygienic.

#### MERCIER GENERATIONS GREENGUARD Certified

Competitor 1 2 3 4

#### TABER TEST

The Taber test consists of subjecting a finished flooring strip section to a spinning wheel covered with sandpaper and measuring the number of rotations needed to completely wear the finish down to the bare wood. The higher the number of rotations, the greater the resistance of the finish.

# Pure Expression Oil Finish

A new finish signed Mercier is born. The Pure Expression oil finish leaves ample room for the beauty and personality of wood which unfolds in its simplest expression. Mercier's Pure Expression oil finished wood has character and generates pure emotion.

### Purity reinvented

Maintenance-free, Pure Expression oil finish is ten times more resistant than other traditional oil finishes. With a 10-year residential warranty, Mercier has reinvented sustainability. A first on the market!

Voir les produits Emotion, collection Nature en page 30.

# Caring for the environment

At Mercier Wood Flooring we don't stop at developing the best, longest-wearing floors on the market. Our 200 employees work hard each and every day to keep our environmental footprint to a minimum, constantly striving to waste less and recycle more. We uphold stringent traceability standards to promote responsible forestry and source our woods exclusively from certified environmentally responsible forestry operations. That's why today more than ever MERCIER floors are the perfect choice for buildings contributing to LEED certification.

# Mercier Moldings

Designed to meet all your decorating needs, MERCIER moldings are available in a multitude of stains and finishes (in Solid, Engineered and LOC) in the ORIGINS, DESIGN+, EXOTIC, NATURE and ELEGANCIA collections.

#### T-MOLDINGS

For smooth transitions between floors in adjoining rooms, T-moldings are the answer. They are perfect in doorways and other passageways, provided the floor surfaces are nearly the same thickness.

#### QUARTER ROUNDS

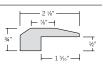

Placed between cabinetwork and hardwood flooring, quarter round moldings create a sense of continuity. They also make lovely, subtle transitions between hardwood floors and the wall base.

#### THRESHOLD

Threshold moldings are an attractive option where height differences come into play, whether transitioning between two wood surfaces or from wood to tile or carpet. Ideal with glue and naildown floorings.

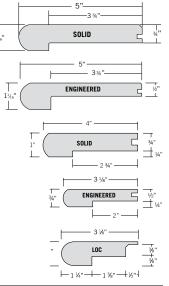

ENGINEERED

100

#### STAIR NOSINGS

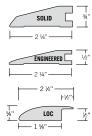

Install stair nosings to give your hardwood stairs that truly professional touch. Stair nosings protect your stairs by absorbing most of the impact from pedestrian traffic. They can be installed in flush and overlap styles, to meet different installation needs.

#### REDUCERS

Reducer moldings can be the answer if you have two wood floors of different heights or want an attractive transition from wood to low pile carpet or vinyl. By style, they can be installed in flush, overlap and bilevel styles for your specific installation needs.

### The three product types: Solid, Engineered and LOC

#### SHARED FEATURES

The MERCIER prefinished wood floors all have the following features:

- Real wood veneer
- Micro-V joints ensuring a uniform and careful assembly
- Different choices of finish semi-gloss, satin, matte, matte-brushed or oiled
- · Wide selection of colours: natural colour or stain (variety of choices)
- Molding pieces to coordinate perfectly with the flooring

## Grade selection

Wood flooring is classified into grades depending on its appearance:

For pure, uniform colour, choose the "Select & Better" grade.

For more pronounced colour variations and character in the wood, opt instead for the "Distinction" or "Authentic" grades.

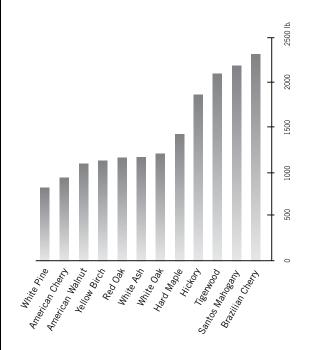

To help you choose the grade that is best suited to your style, ask your MERCIER retailer to show you samples of different grades. Under each sample, you will find all of the relevant information for making your choice.

The wood colours shown in this document are for illustrative purposes only, as they could differ from their actual appearance.

It is therefore important to always validate your choice with in-store samples.

### Janka Hardness Test

Each wood species has its own hardness. The Janka Test measures this hardness in pounds. You can use the table below to compare wood species.
