Alta Moda

superb inlays to admire and live on

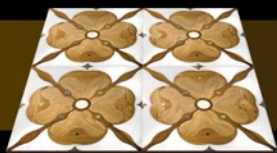

MOJENAGE

TIGER

This collection represents the synthesis of our commitment: high end products where the excellence is obtained not only by the quality of the wood, marble or precious metals that have been used, but most importantly by the particularity of the product range. The production of the collection "Alta Moda" guarantees solutions in unique pieces, built, assembled and mounted by hand.

LAGUNA

CARACALLA

This collection has a powerful personality, with its defining features of boundary-crossing style, sophistication, and high fashion sense, whose exclusive designs elevate the quality of a room.

Spawned from your desire for one-of-a-kind floors, they reflect the personality of those who choose them and live on them.

Here we are showing just a few designs that show the charm of wood, the simplicity of stone, the sumptuousness of metal, and the softness of leather.
