With a length of 2.75 m and width of 30 cm, Chaletino planks showcase the vibrancy and character of the wood even more beautifully than standard hardwood floors do. They combine spaciousness with liveliness and elegance. We offer these oak wood surfaces in 15 colours to suit the most varied of furnishing styles.

The 3-layer structure with its approx. 3.5 mm thick oak top layer is designed to last a long time.

The beauty of imperfections

Old handcrafted techniques coupled with new design aesthetics give rise to floors that are as long-lasting as they are sustainable. The original look emphasises the uniqueness of the wood. This is why imperfections such as knots or cracks in the structure remain deliberately visible and become

a strong statement in the room thanks to the elaborate and traditional craftsmanship. We level, brush and smooth the surfaces and fill cracks and knots with care and passion. This produces exceptionally individual hardwood floors that are simple but also look amazing. A tactile as well as a visual experience!

Feel good. Arrive. Be at home. People around the globe love our floors. And it's no wonder: there is hardly any other floor that offers as much warmth and personality as real planks do.

A great format.
In every respect.

Chalet – exceptionally individual

Chalet is the pride of our master craftspeople. And no wonder: exquisite oak planks in widths of between 200mm and 395mm and lengths of between 2 metres and 4 metres create a unique look. We supply the planks in a grade that deliberately shows knots and vibrant shades. Each Chalet floor is individually planned and designed by BOEN for you. And this is what makes it truly unique.

WOOD IN ITS MOST
BEAUTIFUL FORM

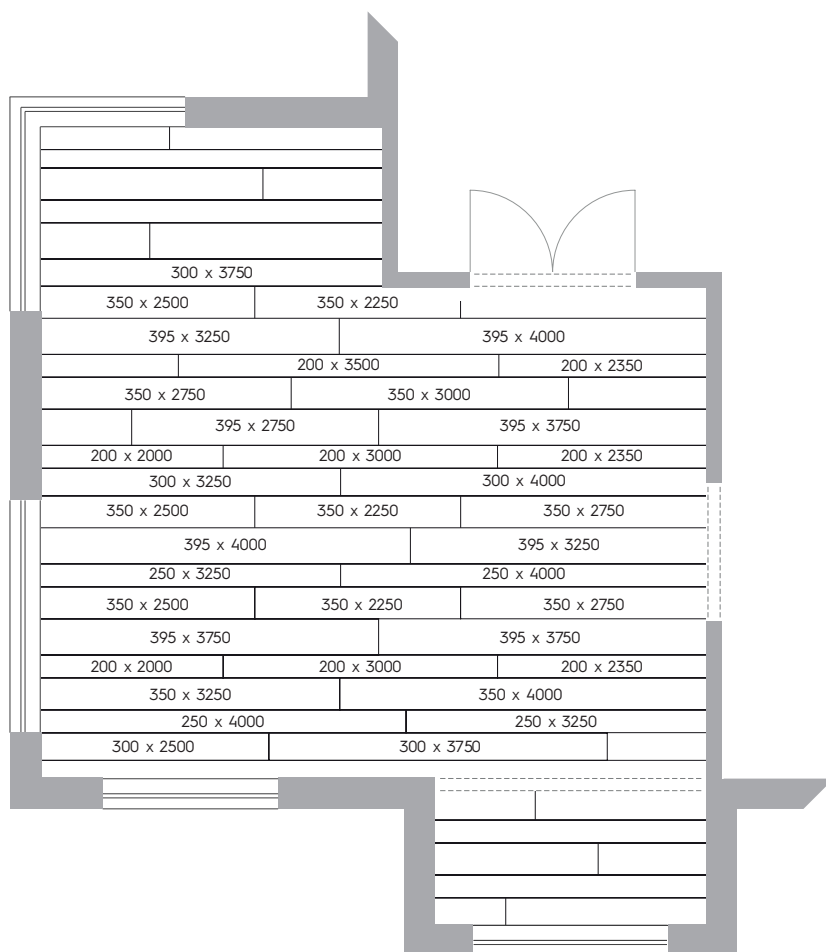

Four steps to your Chalet floor

Incomparable and distinctive

No two floors are the same. This is because each floor with its exceptionally large plank dimensions is specifically designed and manufactured to suit your individual room situation.

1. What colour and surface structure should your floor have? Choose from 13 different surfaces.
2. Which room do you want the floor for? Your architect will give us a floorplan of the rooms.
3. Based on this floorplan, our experts will draw up a draft for the optimal aesthetic composition of the Chalet planks and their layout in the room.
4. If the draft meets your expectations, you can commission us and we will begin production of your individual hardwood floor.

Our Chalet and Chaletino planks are treated with "Live Natural" natural oil. The second application of this natural oil with subsequent air drying makes the surface ready to use. To increase its durability, we recommend initial care directly after laying. Appropriate and regular care will preserve the beauty of the surface for decades. - U** *Urban* – rich in contrast, vibrant, love of experimentation.
- C** *Classic* – elegant, balanced, imaginative.
