**PARADOR**

living performance

# Good reasons for Parador

## Philosophy

We live for products that make every home the most beautiful home in the world. Our value compass points the way: Innovative, sustainable and ecological, we are committed to the highest quality standards in all aspects of our company. In the process we always keep our feet on the ground – the basis of our success.

## Inspiration & Design

The contemporary design of our floors is influenced by the latest trends from art, design, architecture and lifestyle. This inspiration is taken up by our design team, which transforms them into innovative and special looks that turn our products into trendsetters of living space design with an outstanding ecological balance.

## Quality & Materiality

Parador offers aesthetic flooring concepts for every application, which are produced from high quality and recyclable materials. An authentic look, functional design and the environmentally friendly selection of materials enable the implementation of sophisticated "Made in Germany and Austria" living ideas.

## Technology

In order to make laying by hand simple and effective, Parador offers intelligent click connections or high-quality adhesive systems that ensure long-term stability, depending on the product. From use in damp rooms to the integration of underfloor heating, flooring from Parador provides the perfect solution in premium quality for every context.

## Healthy living

The production of environmentally friendly products is a key concern for us and is firmly anchored in our corporate philosophy. Our floors promote healthy living, are low-emission and create a pleasant living environment. We mainly use natural raw materials which are subject to constant review.

## Sustainability

As a traditional wood processing company, the high regard for the environment is the foundation of our work. For this reason, we want to set standards in all aspects of ecologically responsible production – from raw materials to finished products to logistics.

**PARADOR**

# Laminate flooring – the great variety

Laminate flooring is durable, promotes healthy living and is extremely easy to care for – ideal for use in a variety of residential areas. The wide selection of decors, formats and surface structures allows a very individual room design with contemporary looks and an authentic feel for a comfortable and pleasant atmosphere.

The Basic, Classic and Trendtime product lines offer a variety of decors for every requirement, turning individual living dreams into reality. With the intelligent click system, you can quickly and effortlessly benefit from a real “Made in Germany” all-rounder.

# A sense of space with system

We understand high-quality floors in a holistic way: the perfect interplay of all elements underlines the systemic principles that set Parador apart. Our accessories continue in the design and quality of the high-quality line of laminate flooring down to the last detail. Skirting boards, end caps, underlays and the perfect care make your floor what it really is: the stage of your life.

# Laminate flooring – functional and versatile

The overlay, a highly abrasion-resistant, water-impermeable top layer made of melamine resin is microscratch-resistant and thus offers high protection against everyday stress. The decor print impresses with extraordinary brilliance and makes the near-natural material template look amazingly authentic. Impregnated backing paper on the reverse side protects the highly compacted core board from moisture from below. In addition, the patented click mechanism ensures a high degree of fit and connection stability.

① **Overlay**

highly abrasion-resistant and impermeable to water

② **Decor paper**

brilliant, authentic look

③ **Barrier paper**

increases resistance to impact stress (only refers to Classic 1070)

④ **HDF core board**

high quality, especially swell-resistant

⑤ **Counter layer**

high shape and dimensional stability

⑥ **Safe-Lock® PRO**

custom-fit and connection stable

# Product lines

Parador laminate flooring offers a huge range of decors and thereby makes every living requirement a reality. Thanks to their authentic surfaces the decors give every room a completely individual, natural touch and are at the same time extremely durable and easy to maintain. Discover the unique world of the high-performance Parador laminate flooring in the Basic, Classic and Trendtime lines.

## Basic

Those who are price-conscious yet don't want to forgo quality will find in the Basic line a convincing selection of attractive laminate floors for a beautiful home.

## Classic

Uncompromising in quality, classic in design and universally applicable: the Classic line is created for people with high design and quality requirements.

## Trendtime

Impressing everyone for whom flooring is a statement, the Trendtime line offers a unique design range for trend-conscious set-up at the highest level.

# Surface design

Real beauty amazes not only the eye: the natural-looking surfaces of the Parador laminate floors, together with the joint image, offer an impressively coherent overall experience. While the joint design distinguishes the characteristic profile of the floor, the texture embossing accentuates the materiality of the decor significantly, such as wood, stone or concrete. It is embossed deeper and flatter, but is always perceptible and friendly to those who walk on it barefoot, with shoes or on four paws: hard-wearing and easy to care for.

## Joint design

### Without joints

In the case of the classic laying, the planks connect without any clearly recognisable spaces. The harmonious image of the floor creates a closed overall impression.

### 4-sided joint

The all-round bevelled long and end edges create a pattern with the charm of a genuine wood or tile floor, in which the individual plank is emphasised.

## Textures

### Antique matt texture

The charm of real wood is emphasised and particularly authentic with this surface structure.

### Elegant texture

Knots and flowers are emphasised and strengthen the naturalness of the decor.

### Fine-grained texture

A discreet, fine-pored wood texture gives a vibrant and classy look.

### Brushed texture

The texture imitates a sandblasted, brushed surface and in this way intensifies the pleasantly natural feel.

### Wood texture

The wood texture embossing creates an astonishingly genuine wood impression which you can really feel.

### Vivid texture

This texture emphasises woody elements such as branches and flowery, noticeable grain.

### Natural matt texture

The impression of natural wood is conveyed in a matt look.

### Natural texture

The natural texture makes the decor noticeable and wood grains appear more realistic.

### Satin finish

The character of oiled solid wood is reproduced in a noble look.

**Rustic texture**  
Signs of processing and usage lend the charm of old wood.

**Rough-sawn texture**  
The visual appearance of sawn wood in a used look with saw marks is depicted in this texture.

**Matt-finish texture**  
The calm and harmonious texture resembles untreated wood.

**Stone texture**  
The character of modern stone flooring with noticeable unevenness is reproduced in this surface.

**Vintage texture**  
Knots, cracks and coats create a charming Vintage look.

# Skirting boards and caps

Parador offers a wide range of optically matching skirting boards for a harmonious look for any decor. Alternatively, the colours stainless steel, white and black or a primed surface for the individual colour scheme allow the possibility for deliberate accentuation.

Depending on the condition of the substrate (masonry), clip or glue joints can be used for optimum wall mounting. Parador skirting boards are prepared for easy installation: with a clip system or groove for adhesive mounting. Interior and exterior corners as well as end caps and transition caps hide saw cuts and make mitre cuts unnecessary. Simply perfect!

## Caps

The practical, flexible skirting board caps create clean transitions, corner solutions and finishes for the skirting boards SL3, SL5, SL6 and SL18. The caps are offered in Aluminium look or white.

Also for the Hamburg mouldings HL1, HL2 and HL3 Parador offers a new height variable cap product range in plain white.

# Profiles

Combine profiles from Parador, bridge and create finishes for a floor aesthetic that is perfect in every respect. As transition profiles, combine high floor coverings and expansion joints. Adapting profiles are used for the transition between different high floor coverings. End profiles create clean borders with tiles, sleepers and French windows.

## Aluminium profile

Aluminum profiles in anodised silver or stainless steel ensure successful transitions from room to room, connect floor coverings of different heights and ensure clean finishes and provide elegant and skillful accents.

## 3-in-1 HDF profile laminate flooring

With the innovative 3-in-1 HDF profile laminate flooring harmony succeeds with perfection. Can be universally used as a transition, adapting or end profile and being absolutely identical in decor and texture to the laminate floor, it ensures a particularly harmonious floor pattern.

## Designs

**3-in-1 HDF profile laminate flooring here as a transition profile**  
 Absolutely identical in decor and texture to the laminate flooring

**3-in-1 HDF profile laminate flooring here as an end profile**  
 Absolutely identical in decor and texture to the laminate flooring

**3-in-1 HDF profile laminate flooring here as an end profile**  
 Absolutely identical in decor and texture to the laminate flooring

**Transition profile**  
 Aluminium anodised silver/stainless steel

**Adapting profile**  
 Aluminium anodised silver/stainless steel

**End profile**  
 Aluminium anodised silver/stainless steel

# Underlays

Parador offers the perfect solution for every application: the underlay smooths out small unevenness in the ground and at the same time offers high compressive strength. With an integrated vapour barrier the right underlay ensures the required moisture protection in the case of mineral substrates.

Whether a high-tech solution or pure natural product made of wood fibres: underlays from really emphasise the quality of the floor covering.

## Product features

### Footfall sound/Ambient sound

Parador underlays offer footfall sound insulation in three stages – one, two or three shafts provide particularly effective footfall sound insulation.

### Suitable for underfloor heating

Parador underlays are optimally compatible with underfloor heating.

### Moisture resistance

Parador underlays offer moisture resistance in two stages, which are marked with one drop or two drops (high protection).

### Suitable for uneven substrates

Parador underlays compensate for unevenness and are recommended during renovation.

### Compressive strength/dimensional stability

Parador underlays are characterised by high dimensional stability and compressive strength in three stages – from 20,000 kg/m<sup>2</sup> above 45,000 kg/m<sup>2</sup> up to 50,000 kg/m<sup>2</sup>.

## Design

**Akustik-Protect 100**  
Mineral substrates  
High-tech acoustic mats  
Thickness: 1.8 mm

**Akustik-Protect 200**  
non-mineral substrates /  
wood substrates  
High-tech acoustic mats  
Thickness: 2 mm

**Akustik-Protect 300**  
Mineral substrates  
High-tech acoustic mats  
Thickness: 2.8 mm

**Uno Protect**  
non-mineral substrates /  
wood substrates  
Footfall sound underlay  
Compressive strength up to 20,000 kg/m<sup>2</sup>  
Thickness: 2.2 mm

**Duo Protect**  
Mineral substrates  
Damp protection and  
footfall sound insulation in a  
compressive strength up to 20,000 kg/m<sup>2</sup>  
Thickness: 2.5 mm

# Parador service with a system

A perfect overall impression is a question of detail: as a system supplier, Parador keeps the exactly matching accessories available for laying and maintenance. Ease of assembly and low maintenance create long-lasting enjoyment when it comes to your floor – from the beginning.

At [www.parador.eu](http://www.parador.eu), we present an exceptionally convenient service offering, which makes individual room planning as well as decor and material decisions easier. The great product overview, useful tips and many helpful tools make working with Parador floors a real pleasure.

# The Parador programme for laminate flooring

The large variety of Parador laminate flooring decors makes every housing dream become reality. And more: depending on individual requirements for living comfort, healthy living and design exclusivity, the Parador customer – with Parador laminate flooring, Eco Balance laminate flooring and the Parador series of editions by international designers – receives an extraordinary offer for inspiration and the realisation of very personal space requirements.

Laminate flooring – modern, versatile and renovation-friendly, Parador laminate flooring makes every living dream become reality with its huge product range and format diversity.

Eco Balance laminate flooring – particularly resource-saving, promoting healthy living and being low-allergenic, Eco Balance laminate flooring meets the highest environmental standards and also impresses with its large range of decors.

Edition – individual floor designs from Parador in cooperation with reputable designers, setting new standards for the expression of special value and creativity.

# Sustainable Setting standards

# Certified security from responsibility

As a brand manufacturer, Parador is fully and continuously certified by independent institutions. Production processes, materials, resource and environmental management, as well as product quality, meet the high corporate values of a brand with responsibility, in addition to the legal requirements. Our quality requirement for laminate flooring goes beyond legal requirements, which is proved by the various certifications.

EN 14041:2004/AC:2006

**EN 14041:2004/AC:2006**  
The CE marking is obligatory according to EU law in connection with product safety.

[www.blauer-engel.de/uz176](http://www.blauer-engel.de/uz176)

**The Blue Angel**  
The "Blue Angel" has certified Parador laminate flooring as a low-emission product. The eco-label RAL-UZ 176.

**eco-INSTITUT**  
Products with this seal meet the most stringent pollutant and emission requirements prescribed by the eco-INSTITUT.

**PEFC™**  
This trademark is awarded to products that meet the requirements of the certification system for the documentation and improvement of sustainable forest management with regard to economic, ecological and social standards.

**Émissions dans l'air intérieur (Class A)**

This national classification valid in France indicates the quality of indoor air.

CERTIFIED BY SCS Global Services

**FloorScore®**  
FloorScore® is one of the most recognized indoor air quality (IAQ) certification standards for hard surface flooring materials, adhesives and underlayments.

**TÜV Rheinland**

Parador laminate flooring has earned the TÜV certification mark thanks to its perfect product quality, product safety, understandable user documentation and the independent monitoring by the objective institute TÜV Rheinland Germany.

**EPD**

Against the background of energy efficiency, sustainability and increasing building certifications, the Environmental Product Declaration (EPD), which is awarded on the basis of the life cycle assessment (LCA), is becoming increasingly important.

# Good reasons for Parador

## Our stance

As a traditional wood processing company, we have a special awareness of our environment. For us at Parador, sophisticated living goes hand in hand with the responsibility to preserve nature for future generations. This includes the sustainable use of our resources. Every product made of wood is an active contribution towards climate protection. As a vital carbon store, wood products are increasingly entering people's consciousness, especially in the field of construction and renovation. Products made of wood and wood materials are sustainable and help to secure the future of the next generations.

## Production

Our main raw material is wood from predominantly sustainably managed forests. We offer exclusively real wood from controlled sources of supply. The demand for transparency spans all aspects of the value chain and is documented in defined environmental standards for our suppliers. Our production is characterised by the avoidance of emissions and the return of reusable materials into the production cycle, short transport distances and the use of recyclable materials.

## Commitment

Parador is the first and so far the only producer of floor coverings to be EMAS-certified. In this way, we are committed to constantly optimising our environmental management: the requirements and components of EMAS include the involvement of all the company's employees, transparent and sustainable communication with the public, continuous improvement of our own environmental performance and compliance with applicable legislation. EMAS is recognised worldwide as the most demanding system for sustainable environmental management.

## Society

We have been involved with the "Plant for the Planet" foundation since 2011, whose goal is to put a stop to the climate crisis. Against this background, Plant for the Planet has set itself the task of planting a trillion new trees worldwide by 2020. Parador is supporting the initiative with tree planting and the organisation of children's academies. In the meantime, we have trained 550 children to become climate ambassadors and have planted 110,000 trees.
