Una collezione sartoriale ad “alto tasso di sensorialità”, una proposta emotionale che incontra ogni gusto e ogni esigenza abitativa. Essenze prestigiose, lavorazioni superficiali materiche e finiture naturali nell’ambito di un progetto che sottintende il leitmotiv del legno come materia viva, ecologica e riutilizzabile. Alternative originali che “cantano fuori dal coro” per intonarsi a tutte le sfumature della vita moderna.

A highly sensorial tailor made collection, an emotional offer which meets any taste and any interior design need. The most prestigious wooden species, with tactile surfaces and natural finishing in the scope of a project which suggests the theme of wood as a living, ecologic and recyclable element. Unconventional options matching the different aptitudes of modern lifestyles.

A precious heritage
